## Profile Summary

Motivated software developer with a strong foundation in full-stack development, including React, JavaScript, and Core Java. Skilled in databases, server fundamentals, and building scalable solutions. Strong communicator with a collaborative and self-driven mindset, eager to contribute to global digital transformation projects.

## Education

**G.H. Raison College of Engineering and Management, Nagpur**

**Aug 2022 – June 2026**

*B.Tech in Information Technology | CGPA: 8.84*

## Internship

**Software Engineer Intern**

**Dec 2025 – June 2026**

*Netfotech Solutions*

- Built a deployment-ready full-stack web application with responsive and dynamic design in a team environment – React, JavaScript, Node.js, Express, Tailwind CSS, Figma, Postman, Vercel Deployment, System Design

**Full-Stack Development Intern**

**Oct 2024 – Jan 2025**

*YHills Edutech Pvt. Ltd.*

- Worked on database operations including CRUD, schema design, and performance optimization while participating in Agile processes like scrums, code reviews, and version control – MongoDB, MySQL, Agile, Git, GitHub

**Python Development Intern**

**Dec 2023 – Jan 2024**

*Codemate IT Services*

- Gained hands-on experience in Python development while debugging systems, writing maintainable code and participating in Agile workflows – Python, Agile, Git, GitHub

## Projects

**RecruiterAI - AI-Driven Lifecycle Automation** | *React, Node, Express, TensorFlow*

**Dec 2025 - April 2026**

- Streamlined the hiring process from automated Job Description generation.
- Utilized real-time analytics and TensorFlow-powered screening to eliminate human bias and reduce time-to-hire.
- Built a multi-role portal (SuperAdmin, Recruiter, Candidate) with role-based access control, managing the complete talent pipeline from sourcing to offer.

**JanMat - Civic Engagement Platform** | *JavaScript, React, TypeScript, PostgreSQL*

**July 2025 – Nov 2025**

- Built a geolocation-based civic platform for real-time issue reporting, connecting citizens with government authorities.
- Implemented session-based authentication and role-based authorization to ensure controlled access.
- Key features include issue reporting with geolocation tracking, news updates, a chatbot, and real-time polls.

**NxtStay - Smart Hotel Listing Platform** | *React, Node.js, Express.js, MongoDB*

**March 2024 – July 2024**

- Developed a full-stack hotel listing platform using React, Node.js, Express.js, and MongoDB, featuring CRUD operations, search, filtering, ratings, and JWT-based authentication with role-based access.
- Developed RESTful APIs for user actions and media, integrating Cloudinary for image uploads and Mapbox.
- Enhanced backend performance through efficient schema design and authentication using Passport.js

## Skills

**Languages:** Java(core), JavaScript

**Front-End:** HTML5, CSS3, JavaScript, Tailwind CSS, React

**Back-End:** Node.js, Express.js, REST APIs, MVC architecture

**Databases:** MySQL, MongoDB, CRUD operations

**Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, System Design

**Tools:** Git, GitHub, Jira, Figma, Postman

**Soft skills:** English Communication, Remote Collaboration, Problem-Solving, Adaptability
